A Great Future Starts Now

Are you in your first five years of pharmacy practice? You’re probably still finding your way—and your concerns, needs, and interests aren’t the same as those of your colleagues who are more seasoned. This programming was developed by ASHP to address the unique needs of residents and new practitioners at The Midyear. As a conference-within-a conference, this is the place for you to explore workplace challenges, mentorship, and clinical issues in an encouraging, motivational atmosphere.

Best of all, entry into this programming is included in your full Midyear registration fee!

Ensure your success. Spend Sunday with other residents and new practitioners, and see your way to a great future.

ASHP offers the most contemporary way to both prepare for and keep your specialty certification current! Our approach is multifaceted, scenario-based and interactive—opposite from the didactic learning norm. Our highly-rated programs will have an immediate and lasting impact on your practice.

For Review

Live Pharmacotherapy Specialty Review Course
December 5–6  |  Hilton New Orleans Riverside

This complete two-day course provides 16 hrs of CE and a robust preparatory curriculum for the high-level pharmacy professional planning to take the examination.

Our review course participants follow “patients” in real life scenarios from initial presentation, medical history, risk factors, and complications throughout their treatments and outcomes. Participants learn as they apply various treatment options based on national standards and guidelines. Strong emphasis is placed on the thought processes needed to solve patient care problems in each therapeutic area. As patient cases are discussed, faculty members are there to present the best answer to questions that illustrate key concepts.

Highlights of the ASHP review course include:

- Complete coverage needed to confidently prepare for the exam in **only 2 days**! Saving you time away from work and home, and drastically reducing travel expenses
- Interesting, application-based review course approach using complex, case-based interactive learning for high level practitioners and specialists
- Includes regulatory and population health issues, which account for 20% of the BPS exam
- Every topic area contains public health and patient advocacy information
- Participants are given handouts that can be downloaded and/or printed prior to arriving onsite and have access to a practice test containing 100+ practice questions with explained answers and links to original references
- Developed by leading continuing education provider in the country and leading preparatory content experts and faculty

**Registration Rates**

This Review Course is held in conjunction, but separately, from The Midyear, and requires an additional registration fee. You do **not** have to be registered for The Midyear to attend.

### Three Reasons for New Practitioners to Support ASHP-PAC

- Your patients need you. A strong ASHP-PAC is key to achieving provider status. A well-funded PAC will help ensure that you’re able to practice at the top of your license and provide care for patients.

- It’s an investment in your future. Even small contributions make a difference. Your contribution, combined with your colleagues, allows ASHP to build more relationships with members of Congress who support your role in patient care.

- It’s just like CE: Treat giving to ASHP-PAC like fulfilling CE requirements to maintain your license: As a professional obligation. Supporting the PAC helps ensure the continued viability of the profession. Get started today and make giving to ASHP-PAC a habit throughout your career.
