

Innovate, Implement, Interactive, Ideas, Improve

Welcome to the **Informatics Institute** (I-squared)! After a successful *introductory* year, ASHP is pleased once again to offer an *ingenious* line-up of *innovative* educational programming, networking opportunities, expert speakers, *interactive* vendor exhibits and more at the ASHP 2015 Summer Meetings!

Is this your *inaugural* experience with I-squared? Designed for Informaticists from all practice areas, the goal of the Institute is to provide high quality, advanced programming targeted to *improve* utilization of healthcare technology in all patient care settings.

2015 Educational Programming Hot Topics include:

- Specialty pharmacy
- Transitions of care
- Cognitive burdens of EHR systems
- Pediatric informatics

New this year! The Informatics Institute will host a joint session with the Medication Safety Collaborative focusing on smart pump technology. Attendees will come away with *innovative ideas* on how to be proactive in your organizations to prevent medication errors.

Join us for 4 days of interactive learning that you can *immediately incorporate* and *implement* into your pharmacy practice.
