

In March 2014, ASHP launched the **bold out**, inaugural Ambulatory Care Conference. In 2015 this popular new conference merged into the Summer Meetings, and will make its return as one of four boutique conferences you may select to attend in 2016!

AC2 is designed for practitioners who want to advance ambulatory care practice and provides education on hot topics and emerging issues in the practice of Ambulatory Care pharmacy. Our goal is to create a vision for forward thinking pharmacy practice models that will ensure pharmacists are members of the ambulatory healthcare team who are responsible and accountable for patient and healthcare system outcomes.

**Four Meetings. One Registration. All Access.**

You get it all! Attendees who choose the Ambulatory Care Conference (AC2) as their primary meeting will still have complete and total access to all of the sessions and events happening at the Medication Safety Collaborative (MSC), Informatics Institute (I2) and Pharmacy Practice and Policy (P3). Participants will enjoy the education and sense of community found in their boutique conference focusing on specific topic areas, while simultaneously taking advantage of all the opportunities that are available at any of the meetings. Customize your experience—stay in your boutique conference or attend any individual sessions of interest!
