AGENDA

SATURDAY, JUNE 3, 2017

7:30 AM – 8:05 AM  Welcome/Introductions and Tips for Success  
Bryan Lizza, Pharm.D., BCPS, BCCCP

8:05 AM – 9:05 AM  Research Design, Evidence-Based Medicine and Statistical Analysis, Part 1  
Krystal Moorman, Pharm.D., BCPS  
ACPE Number: 0204-0000-17-943-H04-P  
Application-based: 1.5 credit hours  
Objectives:  
At the end of the presentation, the pharmacist should be able to:  
1. Interpret biomedical literature with regard to study design methodology, statistical analysis, and significance and applicability of reported data and conclusions.  
2. Explain the use of evidence-based treatment guidelines and protocols.

9:05 AM – 9:15 AM  Break

Krystal Moorman, Pharm.D., BCPS  
*See Part 1 Above

10:15 AM – 10:30 AM  Break

10:30 AM – 12:00 PM  Complex Case: Acute Coronary Syndrome  
Jill Starykowicz, Pharm.D., BCCCP  
ACPE Number: 0204-0000-17-941-H01-P  
Application-based: 1.5 credit hours  
Objectives:  
At the end of the presentation, the pharmacist should be able to:  
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex critical care patient with acute coronary syndrome.  
2. Adjust treatment and monitoring plans related to alterations of pharmacodynamics and pharmacokinetics in the critically ill.  
3. Select appropriate devices required for treatment and monitoring of a critical care patient.  
4. Determine appropriate fluid and electrolyte management and monitoring based on patient-specific factors.

12:00 PM – 1:15 PM  Lunch on own
1:15 PM – 2:45 PM  

**Complex Case: Complications after Cardiac Surgery - Glucose, Sedation, and Thrombocytopenia**  
Paul Szumita, Pharm.D., BCCCP, BCPS, FCCM  
ACPE Number: 0204-0000-17-940-H01-P  
Application-based: 1.5 credit hours  

**Objectives:**  
At the end of the presentation, the pharmacist should be able to:  
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex post-cardiac surgery patient to include pain, agitation and delirium, glucose management, and heparin-induced thrombocytopenia.  
2. Examine the impact of critical illness on pre-existing conditions (e.g., endocrine disorders, pain).  
3. Recommend quality assurance and process improvement methods relevant to critical care.  
4. Assess the relationship between institutional guideline development and evidence-based critical care literature.

2:45 PM – 4:15 PM  

**Complex Case: Hyperglycemic Emergency and Community Acquired Pneumonia**  
Angela Bingham, Pharm.D., BCPS, BCNSP, BCCCP  
ACPE Number: 0204-0000-17-942-H01-P  
Application-based: 1.5 credit hours  

**Objectives:**  
At the end of the presentation, the pharmacist should be able to:  
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex critical care patient with hyperglycemic emergency and community-acquired pneumonia.  
2. Select appropriate routes and methods of administration for medications in critically ill patients.  
3. Determine appropriate fluid, electrolyte and acid/base management and monitoring based on patient-specific factors.  
4. Recommend appropriate use of agents for acute volume resuscitation.  
5. Identify medication safety issues and strategies pertinent to patients requiring care in the ICU.  
6. Identify appropriate nutrition support in the critically ill patient.

4:15 p.m. – 4:30 p.m.  
Break
4:30 PM – 6:00 PM  Complex Case: Warfarin-associated Intracranial Hemorrhage
Bryan Lizza, Pharm.D., BCPS, BCCC
ACPE Number: 0204-0000-17-944-H01-P
Application-based: 1.5 credit hours
Objectives:
At the end of the presentation, the pharmacist should be able to:
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex critical care patient with oral anticoagulant (OAC)-associated intracranial hemorrhage (ICH).
2. Select appropriate neurologic monitoring techniques.
3. Recommend appropriate use of agents for acute volume resuscitation and hemostasis (e.g., blood products, hemostatic agents).
4. Examine the impact of critical illness on preexisting conditions (e.g., cardiovascular diseases).
5. Determine appropriate fluid and electrolyte management and monitoring based on patient-specific factors.

SUNDAY, JUNE 4, 2017

7:30 AM – 7:35 AM  Announcements

7:35 AM – 9:05 AM  Complex Case: Pneumonia
Mary M. Hess, Pharm.D., FASHP, FCCM, FCCP
ACPE Number: 0204-0000-17-945-H01-P
Application-based: 1.5 credit hours
Objectives:
At the end of the presentation, the pharmacist should be able to:
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex critical care patient with multiple conditions, including pneumonia and acute respiratory distress syndrome (ARDS).
2. Identify drug interactions and adverse drug events common in critical care and methods to document.

9:05 AM – 9:20 AM  Board of Pharmacy Specialties Examination Overview
Brian Lawson, Pharm.D.

9:20 AM – 9:30 AM  Break
9:30 AM – 10:30 AM  
**Practice Administration and Development, Part 1**  
Steve Pickette, B.S.Pharm., Pharm.D., BCPS  
ACPE Number: 0204-0000-17-946-H04-P  
Application-based: 2.0 credit hours  
*Objectives:*
At the end of the presentation, the pharmacist should be able to:  
1. Develop a plan to monitor and evaluate compliance with, and impact of, policies and guidelines (e.g., institutional, evidence based).  
2. Select quality assurance methods and improvement activities, including needs assessment techniques, aimed at enhancing the safety and effectiveness of medication-use processes in the critical care area.  
3. Identify metrics for evaluating the quality of critical care pharmacy services (e.g., lengths of ICU stay, mortality, cost-effectiveness).  
4. Examine the evidence-based literature that supports the value of critical care pharmacy.  
5. Describe the application and integration of evidence-based critical care literature into institutional guidelines and processes.  
6. Evaluate regulatory/IRB requirements relative to conducting critical care research.  
7. Determine factors that enhance the education and training of critical care pharmacists available in published documents from relevant professional societies (e.g., ASHP, ACCP, SCCM).

10:30 AM – 10:45 AM  
**Break**

10:45 AM – 11:45 AM  
**Practice Administration and Development, Part 2**  
Steve Pickette, B.S.Pharm., Pharm.D., BCPS  
*See Part 1 Above*

11:45 AM – 1:00 PM  
**Lunch on own**

1:00 PM – 2:30 PM  
**Complex Case: Sepsis**  
Heather Torbic, Pharm.D., BCPS, BCCCP  
ACPE Number: 0204-0000-17-947-H01-P  
Application-based: 1.5 credit hours  
*Objectives:*
At the end of the presentation, the pharmacist should be able to:  
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex critical care patient with an intra-abdominal infection, sepsis/SIRS, and shock.  
2. Select appropriate routes of administration for medications in critically ill patients.
3. Adjust treatment and monitoring plans related to alterations of pharmacodynamics and pharmacokinetics in the critically ill.
4. Determine appropriate use of agents for acute volume resuscitation and hemostasis (e.g., crystalloids, colloids).

2:30 PM – 4:00 PM  Complex Case: Oncologic Emergencies: Febrile Neutropenia and Tumor Lysis Syndrome
Todd Canada, Pharm.D., BCNSP, BCCCP, FASHP, FTSHP
ACPE Number: 0204-0000-17-948-H01-P
Application-based: 1.5 credit hours
Objectives:
At the end of the presentation, the pharmacist should be able to:
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex critical care patient with febrile neutropenia, tumor lysis syndrome, or hypercalcemia.
2. Determine appropriate fluid, electrolyte and acid/base management and monitoring based on patient-specific factors.
3. Examine the impact of critical illness on pre-existing conditions (e.g., cancer).

4:00 PM – 4:15 PM  Break

4:15 PM – 5:45 PM  Complex Case: GI Bleeding and Acute Renal Failure
John Marshall, Pharm.D., BCPS, BCCCP, FCCM
ACPE Number: 0204-0000-17-949-H01-P
Application-based: 1.5 credit hours
Objectives:
At the end of the presentation, the pharmacist should be able to:
1. Correctly answer case-based questions about appropriate treatment and monitoring of a complex critical care patient with gastrointestinal bleeding, alcohol withdrawal, refeeding syndrome, hepatorenal syndrome, cirrhosis, and acute renal failure with renal replacement therapy.
2. Adjust treatment and monitoring plans related to alterations of pharmacodynamics and pharmacokinetics in the critically ill.
3. Select appropriate routes of administration for medications in critically ill patients.
4. Determine appropriate use of agents for acute volume resuscitation and hemostasis (e.g., blood products, hemostatic agents).

5:45 PM – 6:00 PM  Closing Remarks
ACCREDITION FOR PHARMACISTS

ASHP is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

FACULTY

Angela L. Bingham, Pharm.D., BCPS, BCNSP, BCCCP
Assistant Professor of Clinical Pharmacy
Philadelphia College of Pharmacy- University of the Sciences
Philadelphia, Pennsylvania

Todd W. Canada, Pharm.D., BCNSP, BCCCP, FASHP, FTSHP
Clinical Specialist
University of Texas MD Anderson Cancer Center
Houston, Texas

Mary M. Hess, Pharm.D., FASHP, FCCM, FCCP*
Associate Dean, Student Affairs
Jefferson School of Pharmacy
Philadelphia, Pennsylvania

Bryan D. Lizza, Pharm.D., BCPS, BCCCP*
Clinical Pharmacist - Critical Care
Northwestern Memorial Hospital
Instructor
Northwestern University
Chicago, Illinois

John Marshall, Pharm.D., BCPS, BCCCP, FCCM
Clinical Coordinator
PGY - 2 Critical Care Residency Director
Beth Israel Deaconess Medical Center
Stoneham, Massachusetts

Steve Pickette, B.S.Pharm., Pharm.D., BCPS
Assistant Director Pharmacy Clinical Services
Harborview Medical Center
Seattle, Washington
FACULTY (CONTINUED)

Jill Starykowicz, Pharm.D., BCCCP
Clinical Pharmacy Specialist, Cardiology/ Critical Care
Advocate Lutheran General Hospital
Park Ridge, Illinois

Paul M. Szumita, Pharm.D., BCCCP, BCPS, FCCM*
Clinical Pharmacy Practice Manager
Program Director - PGY2 Critical Care Pharmacy Residency
Brigham and Women's Hospital
Boston, Massachusetts

Heather Torbic, Pharm.D., BCPS, BCCCP
Medical ICU Clinical Pharmacy Specialist
Cleveland Clinic
Cleveland, Ohio

*Content Matter Expert
